

State of Green – Energy Renovation of buildings

23rd June 2022:

Learning event Polish-Danish experiences in the area of energy performance certificates

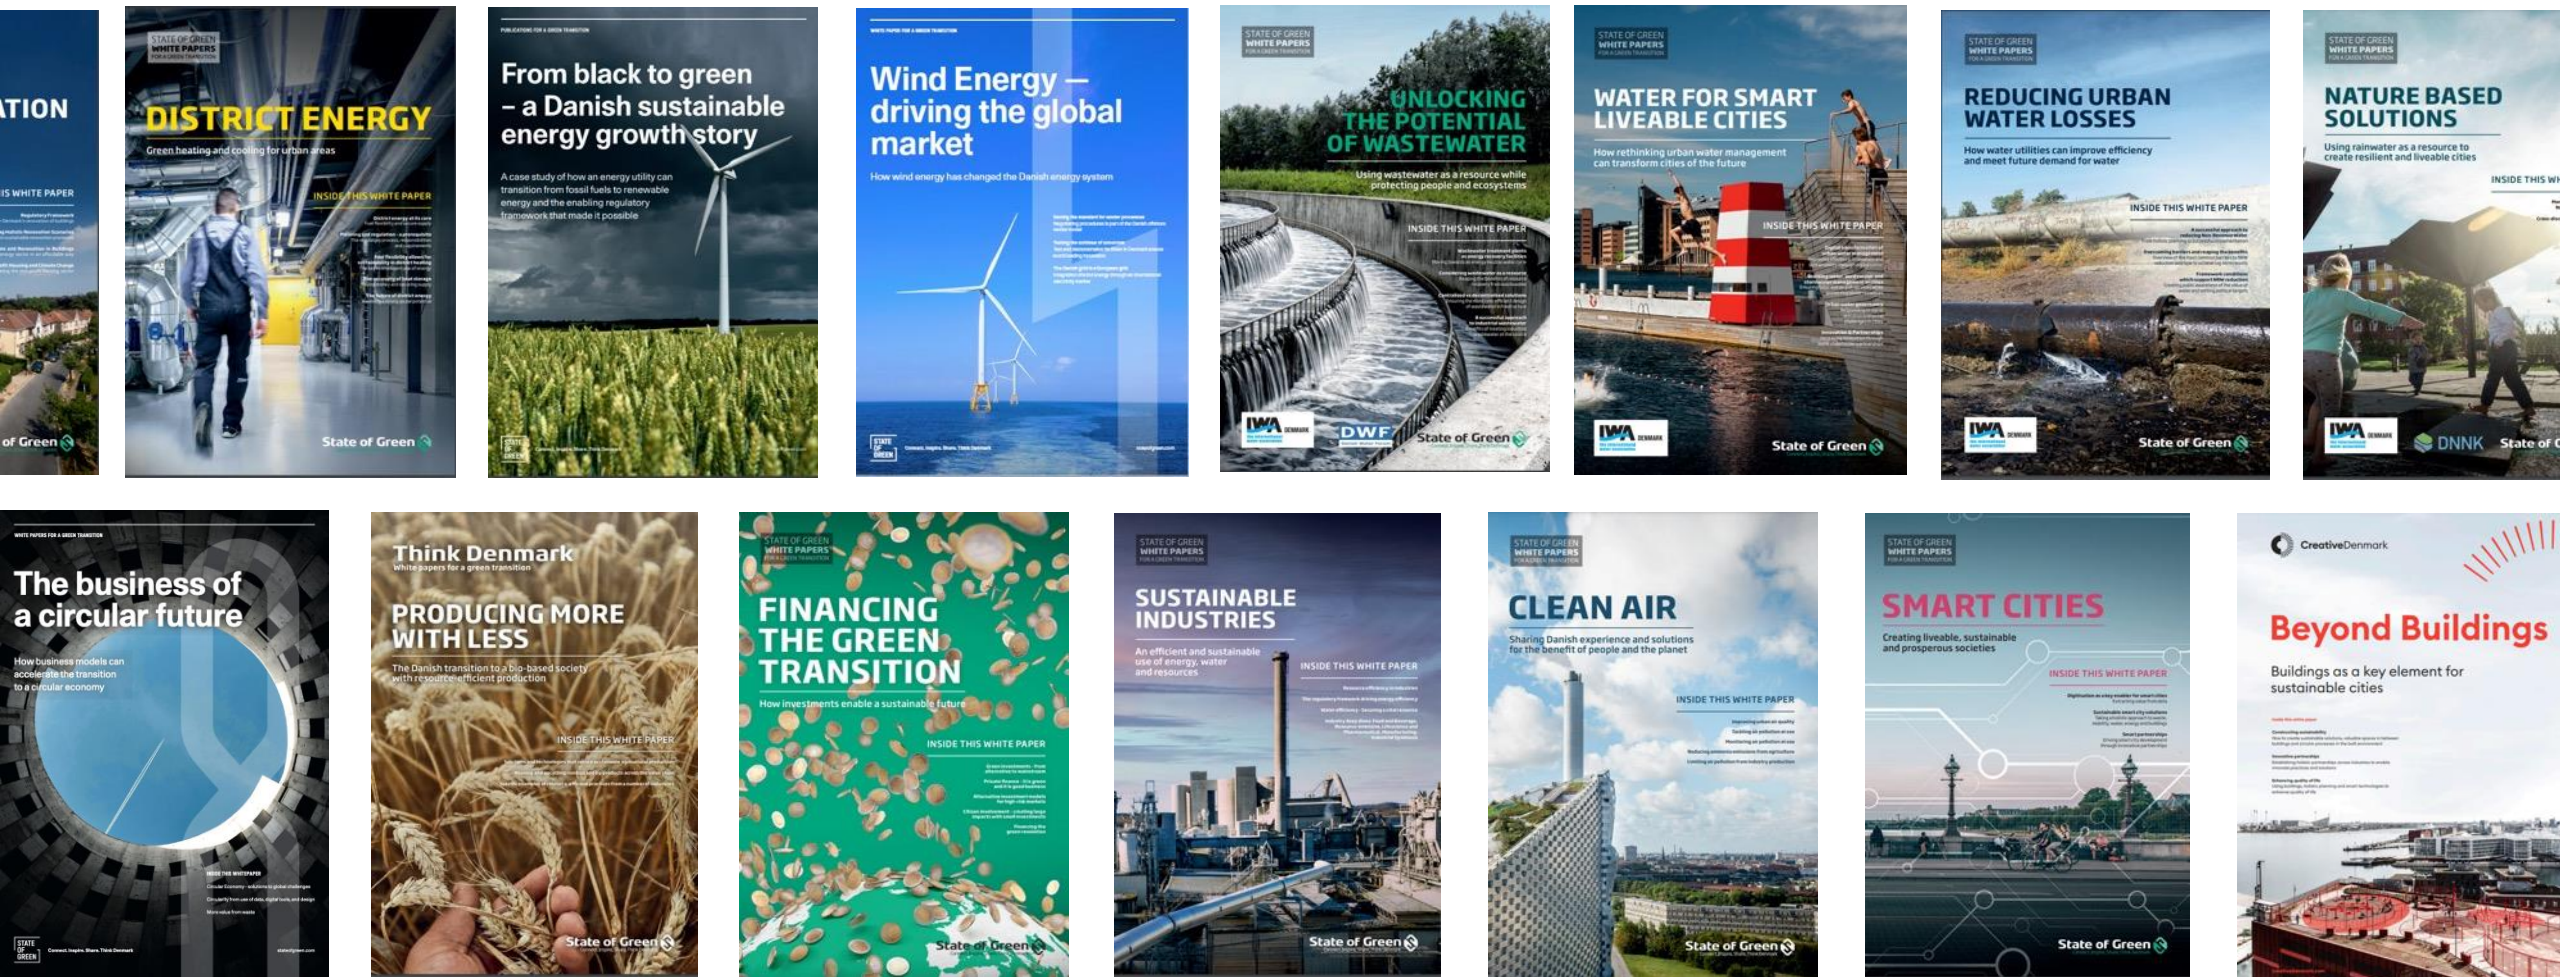

Presenter: Gry Klitmose Holm, Project Manager – Energy Efficiency

Public-private partnership

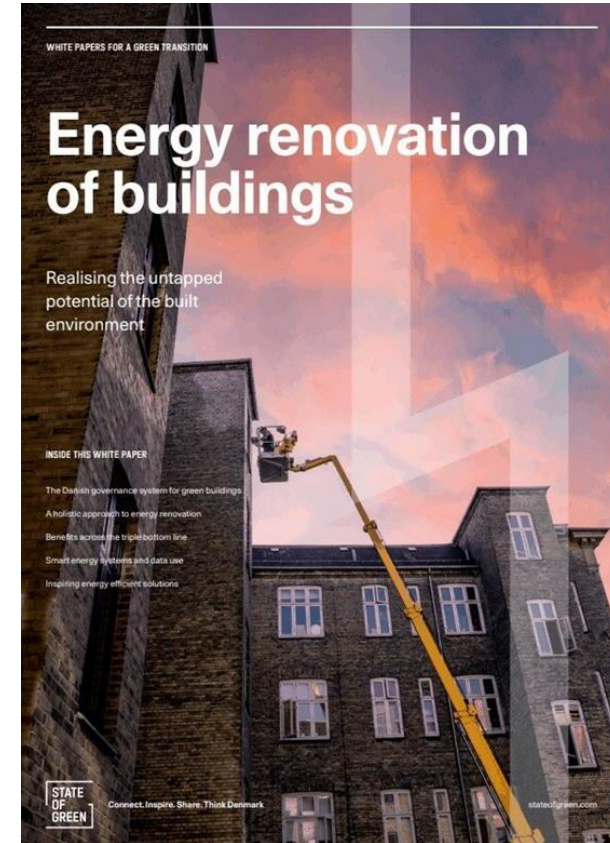

HRH Crown Prince Frederik of Denmark

White papers for a green transition

Focus areas of the white paper

- Regulatory framework – Danish and EU perspective.
- Case-based covering both public and private angle.
- Holistic approach to energy renovation.
- Smart energy systems
- Partnership models
- Financing models
- Digitalisation
- <https://stateofgreen.com/publications/>

Case: ProjectZero in Sønderborg

Focus on both supply and demand side of energy renovations encourages local investment.

Case: Energy renovation towards a CO2 neutral capital

An aerial, high-angle photograph of two workers on the white deck of a ship. The workers are wearing orange safety vests and orange hard hats. They are standing on the deck, which is bordered by black metal railings. The ship is moving through dark, choppy water, with white foam visible from the wake. The text "The journey starts here" is overlaid in white, sans-serif font across the center of the image.

The journey starts here
